Made in France

## Porcelain egg 205 liters

This **porcelain egg** is intended for the wine's production and it will meet your expectations of freshness and authenticity. It is made with a very **resistant porcelain**. Since porcelain pores are narrower than those of stoneware, this material is **ideal for juices that are sensitive to oxidation**.

This egg is suitable for a variety of applications, such as **winemaking or long-term wine maturation**. It can also be used for oils, waters and spirits.

- Smooth interior for easy cleaning and sanitizing
- Inert ceramic to chemical and climatic aggressions
- Long lifespan

### Features

High	Diameter	Opening diameter	Weight	Permeability	Capacity
900 mm	350 mm	50 mm	56 kg	Low permeability	205 Liters

### Composition

SiO <sub>2</sub>	Al <sub>2</sub> O <sub>3</sub>	Na <sub>2</sub> O/K <sub>2</sub>	Minority components
60%	35%	0,3,5%	2,9%
